Sunny Chang Lu

Shanghai, China | luchang1106@icloud.com | +86 138-1776-0040 | snylur.github.io | github.com/Snylur

Updated October 25, 2026. View the most recent version at snylur.github.io/resume.pdf

Education

Shanghai Starriver Bilingual School Shanghai, China
Class of 2027 | GPA: 4.770/4 (weighted) | TOEFL: 117 | SAT: 1580
awarded Triennial Academic Scholarship by highschool

AP Research (2026–2027); 11 of 12 AP exams scored 5.

Audited CIS 160 and CIS 121 at University of Pennsylvania, and COS 126 and COS 226 at Princeton University.
In CIS 121, scored 99.0/121.0 on the final (mean 59.14, SD 20.8)

Alum Experiences

Ross Mathematics Program 2026
6-week intensive summer camp designed for pre-college students to explore Number Theory

European Summer Programme on Rationality 2025
workshop for mathematically talented students covering game theory, AI, argumentation, cognitive science, and much more

Yau Math Camp 2025
a camp introducing students who may pursue future research to modern mathematics

Yingcai Talent Program 2025
also known as The National Scientific and Technological Innovation Talent Training Program

Program in Algorithmic and Combinatorial Thinking 2021–2022
a theoretical, proof-based camp that teaches students about the mathematics and algorithms fundamental to computer science

Research

Kempe's Universality Theorem on Restricted Topologies 2025–Present
Proved that linkages remain universal when restricted to crossing-free, bipartite graphs of maximum degree three; built interactive Desmos constructions of gadgets: Gallery 1, Gallery 2.

HeXO is PSPACE-Hard 2025
Proved $\mathrm{Connect}(n, 6, 2, 1)$ *on a hexagonal grid PSPACE-complete by reduction from Quantified 3SAT.*

Folding Polyominoes into Uniform-Thickness Rectangles 2023–2026
Provided results for solvability as Origami Puzzles for polyominos up to hexominos.

Tiling Squares with Polyominoes 2025–2026
Conclusively characterized which squares each polyomino, up to pentominos, can tile.

PowerPoint Vexillology *(Arglin's Cenote)* 2025–Present
Contributed to a 2,000+ member research effort constructing every flag with PowerPoint tools; supplied the SmartArt cycle construction necessary for flags of Croatia and Kyrgyzstan; presented the work in a talk on the Math Club channel.

Awards & Qualifications

Mathematics

STEP II: 115/120 (S); STEP III: 102/120 (S), Sixth Term Examination Papers (STEP) 2026

Silver Medal, Distinction and Best in School, British Mathematical Olympiad 2026

1st Team Overall and 2nd Individual, Duke Math Meet 2025
also 1st Team Overall, 1st Team Challenge and Relay, 3rd Individual in national qualifiers

1st Individual (2024); 2nd Individual, 1st Team (2025), Yale MMATHS 2024–2025

15th Overall Individual and 11th Theme Round, Harvard–MIT Mathematics Tournament 2023
also 18th Combinatorics (2025) and 23rd Geometry (2026)

Team 3rd Overall; Individual 8th, Combinatorics 3rd, Princeton University Mathematics Competition 2026

Global Top-10 Team and National 1st, High Distinction, Berkeley Math Tournament 2024

National Team Gold, National Individual Top 100; Power Round I Silver, ARML Local 2023

AIME: 12/15 (2025, 2026); AMC 12: 138/150 (2026); AMC 10: 150/150 (2023) 2023–2026

Honorable Mention, International Mathematical Modeling Challenge 2026

Informatics & Artificial Intelligence

Silver Medal, Scientific Round, International Olympiad in Artificial Intelligence — 2024
Gold Division, USA Computing Olympiad — 2023
First Prize, National Olympiad in Informatics in Provinces (NOIP) — 2025
First Prize, both rounds, CSP-J and CSP-S — 2023
Winner, 2nd International Obfuscated Python Code Contest — 2024
All-Star, Global Bronze, ACSL **Programming Contest** — 2023

Physics & Chemistry

Global Gold; Global Top Gold (top 2%); Round 2 Silver, British Physics Olympiad — 2024–2026
Global Gold (49/50), Senior Physics Challenge — 2025
National Gold (2025); National Silver (2024), Physics Bowl **Division 1** — 2024–2025
Global Gold, Cambridge Chemistry Challenge (C3L6) — 2024

Linguistics, Humanities & Design

High Distinction (top 10%), International Linguistics Olympiad **Regional Round** — 2026
John Locke Institute Essay Competition — 2023–2024
Commendations in Politics and Philosophy (2023); Merit in Politics (2024)
Finalist, Best Pen & Paper Puzzle, Thinky Awards — 2025

Activities & Leadership

OEIS **Contributor** — 2025–Present
Proposed sequence A398486; contributed corrections and comments to existing entries

Presenter of 2swap's Math Club — 2025–Present
Seminars on tilings, foldings, and PowerPoint constructibility; related videos have 800,000+ total views on YouTube

Open-Source Developer — 2023–Present
Origami Simulator, HeXO Renderer, and miscellaneous projects

Puzzle Designer — 2023–Present
Co-designed Origami Puzzles, Thinky Awards finalist | co-designed ICNP | contributor to PUZZDLE
playtester for Herd, Workworkwork, and Mondrian Restoration

Speaker, TEDxXuhui — 2023
Tentative speaker for 2026 TEDxSSBS

Associate Editor and Writer, non-default zine — 2026–Present

LIVE **Communication Training** — 2025–Present

Writer, The Curious Incident of the Fork in the Night-Time — 2024
fanfiction of Mark Haddon's original The Curious Incident of the Dog in the Night-Time

Desmos Visualization **of** 2swap et al.'s compact weak Connect-4 solution — 2026

Work Experience

Worksheet Author, starmathcat's worksheets ***(YouTube mathematics channel)*** — 2026–Present
Mathematics Tutor, Cambridge STEP Exam Preparation ***(five sessions)*** — May 2026
Freelance Translator, ***Checkmate Combination Technique*** **into Chinese** — Aug–Dec 2024

Skills

Programming: proficient in Python, Desmos, and LaTeX | open source work with Kotlin | basic C++ and Java knowledge
Languages: fluent in English, Chinese (Mandarin), and toki pona
